Lastite Zinc Flumes

LASTITE

Do Not Rust

Irrigation Supplies

RIVETED STEEL PIPE

Weigele straight seam riveted steel pipe has been the standard for over thirty years, for Water Works flow lines, Irrigation, Power Lines, Pumping Plants, and Mining. Made of galvanized or blue annealed copper bearing steel, in all diameters from 4 in. to 10 ft.

LASTITE ZINC FLUMES

Are guaranteed never to rust, and will give many times the life of any other flume. Investigate Lastite Zinc Flumes; the most economical flumes made.

IRRIGATION SUPPLIES

We manufacture a complete line of Irrigation supplies and we are equipped to render the best of service. Orders taken for immediate or next spring delivery.

WELL CASING

Weigele Well Casing, perforated and plain, made of galvanized, copper bearing steel is the standard with experienced well men. It gives the best results. Made in all diameters from 6-in. up.

SMOKE STACKS

We have made more than 75 per cent of all the smoke stacks used in Colorado in the last thirty years.

CULVERTS

Thompson corrugated, galvanized, copper bearing steel Culverts are made RIGHT and they LAST under the most severe service conditions.

Write today for literature and prices of our products.

DENVER, COLORADO.

(Prepared for the City Directory by the Denver Civic and Commercial Association.)

Denver is a city of unique characteristics and unfailing charm. Its Capitol, Civic Center, Libraries and Museums are sources of information and interest; and its Municipal mountain Parks, broad areas in local parks and boulevards, and well lighted and paved streets, are sources of real pleasure. But there are reasons above and beyond sentiment for visiting Denver, and visitors who come here to Colorado—the playground of America—to enjoy the salubrious summer climate and the scenic beauties of the mountain park drives find in Denver abundant reasons for locating here and establishing in business.

The city is unrivaled as a jobbing center for four million people in six states of the Rocky Mountain region. Its central location, direct transportation in all directions, and favorable freight rates make it the natural and logical point for assembling and distributing commodities over a large territory that is its natural trade area, and its wholesale trade covers practically every line known to any city in the country.

Denver is a manufacturing city of considerable and growing importance, and a painstaking and scientific study made by the Industrial Research Committee of the Denver Civic and Commercial Association has demonstrated that it possesses the essential assets for continued progress as an industrial city. Its basic advantages as a manufacturing city are proximity to raw material supplies, ability to process these raw materials in the center of the great and expanding Western Market, and to sell finished products without expensive "back hauls." This is the economic significance of the slogan—"Denver, the Middle of the West". According to the United States Census returns for 1919, there were 1,097 manufacturing establishments in Denver with 21,472 persons engaged in the different industries represented. The capital stock invested in these Denver plants was $72,147,213, the annual wages paid to employees was $23,248,877, the value of the products of these plants was $125,411,270, and the value added by manufacture was $46,071,326.

Denver's fifteen hundred retail shops are unsurpassed by those of any city of the country in general appearance, service rendered and variety of stocks. These include five department stores, nine hundred grocery stores, three hundred drug stores, eighty clothing stores, forty-five hardware stores, forty-five shoe stores, seventy jewelry stores, seventy dry goods stores, thirty music stores, eighty furniture stores, eighty-five florists, forty ladies' apparel stores, etc. The downtown business and shopping district covers five leading streets with more than twenty cross streets, and has as fine business blocks and lighting system as any city in the country.

The rapid growth of the city is evidenced by the fact that the building permits reached a value of $18,016,095 in 1922, as against $4,549,920 in 1920 and $2,595,890 in 1918. These 1922 building permits include nineteen new manufacturing plants totaling an aggregate expenditure of $1,027,000, which does not include about $550,000 for new industrial plants just across the line from Denver in Adams County and related to Denver's industrial growth. One hundred and eleven new store buildings in 1922 were erected at a cost of $973,000, while tweny-five warehouses were built at an expenditure of $468,100 and four new office buildings cost $556,000.

According to the report of the U. S. Comptroller of the Currency for October, 1922, Denver stands fourth among the cities of the United States in the amount of savings deposits of the national banks—namely $28,808,000 and ninth in the number of depositors. Deposits in the twenty-seven banking institutions in Denver increased thirty-two million dollars during 1922.

Not a main governmental department in Washington is without a branch or bureau office in Denver. There are more federal offices in the city than in any other in the United States, excepting Washington, D. C. Many of these have jurisdictions extending over several states and some cover the entire United States and Alaska in their work. Besides occupying two large buildings, the new Post Office and the Customs House building, they utilize numerous quarters in other buildings. A United States Mint is housed in a handsome building. Fort Logan is situated within a few miles of the city limits. Fitzsimons General Hospital for the treatment of sick and disabled soldiers is located just east of the city. It comprises more than one hundred buildings erected at a cost of $4,000,000.

From Denver is directed all the work of the U. S. Reclamation Service in developing arid and semi-arid areas of the West. The Forest Service supervises its work in several states from the Denver headquarters. The U. S. Supervisor of Surveys has charge of executing land surveys in the United States and Alaska and directs the work of ten district offices from Denver. The Geological Survey has charge of investigating water resources in Colorado, New Mexico and Wyoming. Mineral investigations are made and data compiled regarding the output of all precious metals in Colorado, Wyoming, South Dakota, New Mexico and Texas.

Many beautiful buildings in Denver are in keeping with the atmosphere of comfort and prosperity. The State Capitol building on the west slope of Capitol Hill overlooking the Civic Center cost $2,800,000 exclusive of the site. The building is constructed of gray Colorado granite and is finished inside with bronze and Colorado onyx. The Capitol grounds contain forty-five different varieties of trees, all marked with Latin and English names. Flanking the State Capitol on the south is the Colorado State Museum, built of Colorado white marble at a cost of $250,000, which houses a splendid collection of wearing apparel, weapons, utensils, etc., of the prehistoric cliff dwellers in southwestern Colorado; also many fascinating ex-

hibits of pioneer days in the Rocky Mountain region. North of the State Capitol building, the $2,000,000 State Office building gives additional office space for State employees.

The Municipal Auditorium, one of the largest convention halls in America, is absolutely fireproof and cost nearly $1,000,000. It has a seating capacity of 12,000, but is so arranged that part of it can be temporarily shut off from the remainder and be used as a theatre with a seating capacity of 3,145. The auditorium contains an $80,000 organ on which free concerts are given every noon in summer, and on Sunday afternoons in winter.

Plans for a handsome building to house the branch of the Federal Reserve Bank, District No. 10, Kansas City, are under way. Other noteworthy buildings include: the $2,500,000 Post Office building of white Colorado marble; the United States Mint which was opened in 1906 and is one of three in the Country; public library property valued at more than $650,000, including a $550,000 main library on the Civic Center and eight branch libraries; a City Hall and County Court House; more than two hundred and forty churches, two hundred and eighty hotels, twenty theatres, thirty-five banks and trust companies, etc.

Denver's public school system includes sixty-two grade schools—most of them with kindergarten departments—six junior high schools, five senior high schools, one evening high school, four elementary evening schools, and one opportunity school. Other buildings are under construction. Among the noteworthy private educational institutions are: the University of Denver including, besides the College of Liberal Arts, schools of law, theology, dentistry, commerce and finance, etc.; the Medical School of the University of Colorado; Colorado Woman's College; Wolcott School for Girls; Kent School for Girls; Loretto Academy; St. Mary's Academy; Regis College; Collegiate School for Boys; Whitaker School of Speech Reading; Denver Bible Institute; Western School of Estimating; several conservatories of music, academies of art, and schools of expression and dancing; many parochial schools; many business colleges and automotive schools; and schools of salesmanship, advertising, dressmaking, etc.

The University of Colorado at Boulder and the Colorado School of Mines at Golden are less than two hours' ride from the city, while the colorado Agricultural College at Fort Collins, the State Teachers' College at Greeley, and Colorado College at Colorado Springs may be reached in three hours.

There has recently been contributed approximately $2,000,000 from various sources including the Rockefeller and Carnegie Foundations, the State of Colorado, and individual subscribers, for the erection and maintenance of a State Medical School and Hospital in Denver in connection with the University of Colorado, which will make Denver the medical center of the West. The erection of a Psychopathic State Hospital is included in this plan.

The first unit of a splendid new Presbyterian Hospital is being completed at a cost of $1,250,000 with equipment, $332,000 of this having been raised through popular subscription. The site covers four full city blocks. Arrangements have been made for the construction of additional units, as occasion arises, in harmony with the original, general plan.

Other leading hospitals for the care of the sick, all occupying commodious buildings, are: the Children's Hospital (Protestant); City and County Hospital supported by public taxation, and in connection therewith the Steele Hospital for contagious diseases and the City Tubercular Hospital; Denver Homeopathic Hospital; Fitzsimons General Hospital just east of the city, maintained by the Government for service men; Mercy Hospital conducted by Sisters of Mercy; Park Avenue Hospital (Protestant); St. Anthony's Hospital, in the charge of Sisters of St. Francis; St. Luke's Hospital (Protestant); St. Joseph's Hospital, conducted by Sisters of Charity; and the Highland Hospital.

Tuberculous invalids or semi-invalids of moderate means, attracted by the climate, can find accommodations at the Agnes Memorial Sanitarium, the Oakes Home, the Adams Memorial Sanitarium, and many others, while the National Jewish Hospital for Consumptives, Craig Colony, and others take tuberculous patients without charge. It is suggested that anyone intending to come to Denver for the cure of tuberculosis write first to the Denver Tuberculosis Association for complete information.

Non-tubercular sanitariums include the Mt. Airy Sanitarium, Tilden Health School, etc. Denver's many charitable institutions include the State Home for Dependent Children, Florence Crittenden Home, Old Ladies' Home, etc., etc.

Denver's park system extends nearly to timberline in the nearby mountains to the west, and embraces a wide variety of scenery and climate beween the plains on which the city is built and beautiful Echo Lake at the upper end of Denver's municipal parks, 10,600 feet above sea level and 5,320 feet in elevation above Denver, from which the State of Colorado is building a highway to the summit of Mount Evans (14,260 ft. above sea level). This system of mountain parks contains 4,416.51 acres, with eighty-five miles of boulevard owned, built and maintained by the City of Denver. The road has a uniform width of twenty feet and a maximum grade of six per cent except a stretch a few hundred feet long below the base of Lookout Mountain which reaches seven per cent; it is well protected by posts and cables. Beside the road are many camp grounds, shelter houses, out-door ovens, and other picnic facilities. On Lookout Mountain on the east flank of the Rocky Mountains and in the center of the Denver mountain parks, is the grave of Buffalo Bill (Colonel William F. Cody) 7,342 feet above sea level, from which one looks out over the lights and shadows of the plains and in the evening sees the lights of Denver spread out at his feet. On Genessee Mountain in the Denver parks system is the only municipal game preserve in the United States. This tract embraces four hundred acres and is stocked with elk, buffalo, deer, mountain sheep and antelope, which may be seen near the road in large numbers.

Denver's system of city parks and boulevards keeps pace with its mountain parks, and its two hundred and fifty miles of shaded and graded streets fronting handsome residences help to mark it as a beautiful home city. Thirty-eight parks and thirty-two playgrounds within the city limits contain a total area of 1,479.33 acres, and are connected by an extensive system of boulevards. Especially worthy of note is Speer Boulevard on the north side of Cherry Creek which was walled and parked at a cost of more than $600,000. A system of viaducts connects the eastern and western sections of the city, extending over the Union Station and many miles of trackage.

City Park is the largest in the city park system with an area of 468.74 acres. Here, in a band house on the larger of its two lakes, the municipal band furnishes free concerts on three evenings every week in summer, while a $20,000 electric fountain in the center of the lake, capable of one hundred and twenty-five different formations, presents a beautiful sight wih its myriad lights. And in City Park, too, is an extensive zoological garden in which the bears and some of the other animals are found in their natural habitats, without iron bars but with such arrangement of rocks and water as to prevent their escape. The Colorado Museum of Natural History in City Park contains a fine collection of minerals and works of art, and—most novel and interesting of all to most visitors—a splendid collection of stuffed animals and birds including buffalo, deer, mountain sheep, mountain lions, musk ox, grizzlies, beaver and many others, which are shown in relation to their natural habitats and which are conceded to be the most life-like in any museum in the world.

In the center of the city, just between the business and residence sections, is the municipally-owned Civic Center, nine acres in extent, ground for which was purchased at a cost of $2,948,746. Adjoining it on the east are the extensive grounds of the State Capitol building covering fifteen acres. On one corner of the Civic Center is the main Public Libray; (there are also eight branch libraries and thirty-two "deposit stations" in the city). The Voorhees Memorial on one side of the Civic Center with lagoon and fountain in front, is balanced by the Colonnade of City Benefactors and out-door theatre opposite. In this out-door theatre, which has a seating capacity of five thousand and convenient standing space for five thousand more, concerts are given two evenings a week in summer by the municipal band. Statues which have been donated to the city adorn other parts of the Civic Center, and it may be stated, parenthetically, that gifts to the city by patriotic citizens, including gates, statuary, fountains, paintings, etc., placed in the various parks and museums, are valued at more than four and a quarter million dollars. The Civic Center will soon be considerably enlarged as a result of a recent election at which it was voted to buy the block adjoining it on the west and to built thereon a new court house and city hall.

Denver's climate is ideal for out-of-door sports and recreation, with three hundred and four days of sunshine and blue sky in the average year, sixty-five per cent of the possible sunshine, and a relative humidity of fifty-four which is so low as to make impossible the oppressive heat and cold of other climates. The city owns and maintains sixty tennis courts, and eighteen-hole golf course covering one hundred and sixty acres laid out by one of the leading golf architects of the country, and a nine-hole golf course at Evergreen in the mountain parks. And four private country clubs contain first-class golf links, tennis courts, club houses, etc. Golf and tennis may be played nearly every day of the year.

Swimming is a popular summer sport at the municipal bathing beaches at Berkeley and Washington parks where concrete bath houses with steel locker systems are provided. And a municipal bath house costing $87,000, with interior of white glazed tile, is located near the center of the City; no admission is charged and thousands come both summer and winter; the pool is drained and scrubbed every other day.

For Denver children are provided thirty-two playgrounds, each of which is supervised by from one to three trained instructors during the summer months while the schools are closed. For twenty years Denver has built its own playground apparatus.

The music lover finds much to enjoy in Denver. Concerts by noted artists are provided in two series under private management during the winter. The Civic Symphony Society has raised money by private subscription for popular symphony concerts for which every seat in the municipal auditorium is reserved at a uniform charge of ten cents; plans have been completed for twelve concerts during the coming season which will be the second year of the Society's activities. Grand opera companies from Chicago and other large cities give performances in Denver during the winter. An active Music Week Association puts on an opera and sponsors many concerts during "Music Week" in May of each year. And numerous musical societies and professional musicians of high standing provide additional opportunities for hearing good music.

Also, free organ concerts are provided by the City of Denver every noon during the summer months on a splendid $80,000 organ in the municipal auditorium. And the city maintains a municipal band of thirty-six players which gives free concerts every evening for ten weeks in summer in the various parks.

For the movie fan a wealth of amusement is provided on Curtis Street with its "Movie Row" which is conceded to be the most brilliantly lighted street in the world. The Broadway, the Denham and the Orpheum offer high-class drama and vaudeville, and in summer there are theatrical attractions at Lakeside and Elitch's famous suburban gardens.

For the automobilist, the hiker and the camper, the mountains just west of Denver offers joys untold. Any one who enjoys touring by automobile can spend many pleasant and profitable weeks on the excellent, safe automobile roads which pass through beautiful sections of the Rocky Mountains. And the mountain

climber has a wealth of forty-six peaks over 14,000 feet above sea level (all but thirteen of those in the United States) to choose from, as well as innumerable easier trips.

In winter the climber can usually find bare ground for tramping on the southern slopes and ridges of the foothills near Denver, while on the north slopes of the lower mountains and throughout the higher regions the ski, snow-shoe and tobogan enthusiasts find a fairyland of snow-covered evergreens and trackless forests. At a ski course on Genessee Mountain in the Denver mountain parks the city holds two national ski carnivals each year, when prizes are offered to amateur and professional ski jumpers. Nearly ten thousand persons witnessed the carnival last February from a dry, sunny slope, while the jumpers found plenty of snow on the shady, northern slope opposite. A ski tournament on St. Mary's glacier within fifty miles of Denver furnished a novel fourth-of-July entertainment in 1923.

Denver's many excellent clubs contribute to the social life of the city. Some of these are: the exclusive Denver Club, which maintains elaborate club rooms in the business section of the city; the University Club for college and university graduates which has extensive club rooms, sleeping quarters and apartments; the Denver Athletic Club with a membership of more than fifteen hundred and a spacious building with gymnasium, swimming pool, restaurant, residential apartments, etc.; Shrine Club which maintains a magnificent reading and lounging room and billiard and pool room in its building—El Jebel Temple; Elks Club which has extensive club rooms equipped with every convenience of modern club life; American Legion Club; Denver Press Club; Democratic Club; Knights of Columbus; Colorado Chess Club with well equipped club rooms; Gentlemen's Driving and Riding Club; Denver Motor Club with a membership of more than three thousand, which owns a magnificent club house on Bear Creek in Denver's municipal parks; Denver Country Club, Lakewood Country Club, Cherry Hills Country Club, Mt. Vernon Country Club, and Rocky Mountain Country Club; Colorado Mountain Club which maintains club rooms in the Chamber of Commerce Building; Rocky Mountain Ski Club; Young Men's Christian Association; and Young Women's Christian Association.

Fifty thousand visitors can be accommodated in Denver's two hundred and eighty-two hotels and fifteen hundred rooming houses. Between three and four million people travel in Colorado each year, and of these 219,164 visited Rocky Mountain National Park during 1922—or more than twice as many as visited any other national park in the country. Many of these stayed the full vacation period—from two to three months.

Denver maintains a free automobile camp at Overland Park, just fourteen minutes' ride from the heart of the city, where the campers obtain free camping sites with free water, shower baths, laundry tubs, electric current, etc.; wood is furnished at the cost of cutting—and meals, groceries, soda water, gasoline and clothing and tents may be purchased at a reasonable cost. During 1922, 19,649 cars containing 45,577 persons registered at the Overland Park camp.

POPULATION

The directory contains 147,909 names, an increase of 5,533 names over last year, or 4 per cent. In reckoning the population, we first deduct 12 per cent of the names for co-partnerships and business firms, then multiply this figure by two and one-quarter, which gives Denver a population of 292,860.

MUNICIPAL PUBLICITY—Advertising Denver

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site and as an educational center. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country the publishers place copies of this issue of the directory in Directory Libraries which are maintained in all the larger cities of the country, where they are readily available for reference use by the public. There they serve as perpetual advertisements of Denver, for business men the country over realize that the City Direcory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves and their friends for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

FEDERAL OFFICES.

Following is a list of the United States Bureaus and Divisions of Government Departments in Denver, with their locations:

DEPARTMENT OF AGRICULTURE

Forest Service

463 Post Office Bldg. Headquarters for district comprising all forests in Colorado, nearly all of those in Wyoming, two forests in So. Dakota, two forests in Minnesota, one forest in Michigan and one forest in Nebraska—a total area of national forest comprising almost 23,000,000 acres. A. S. Peck is district forester in charge. Four hundred employes are under his supervision. Bureau of Agricultural Economics, W. W. Putnam, Statistician, 501 Cooper Bldg.

Animal Industry

Field office in charge of Dr. W. E. Howe 444 Post Office Bldg., maintained for the investigation of diseases of animals in district comprising Colorado and Wyoming. Meat Inspection Division at Denver Stockyards, conducted by Dr. C. F. Payne as inspector in charge. Under the latter is a force of thirty-four inspectors at 303 Stock Exchange Bldg.

Biological Survey

212 Custom House, S. P. Young & Jos. Keyes, inspectors in charge.

Public Roads

301 Custom House, Junius W. Johnson, District Engineer, in charge of Federal Aid highway service. District office has supervision of work in Colorado, Wyoming and South Dakota. Approximately thirty-five employes in Denver office, with a total of fifty in district.

Food and Drug Inspection Station

518 Tabor Building, G. J. Morton, chief Denver station. A force of eleven chemists and inspectors give attention to the enforcement of the pure food and drug acts in Colorado, Wyoming, Utah, New Mexico and a portion of Montana. Has jurisdiction over foodstuffs and beverages entering into interstate commerce.

Bureau of Markets—Federal Grain Supervision

505 Cooper Bldg. E. A. Hill, official in charge. Supervision of interstate shipments and establishment of federal standards for shelled corn and wheat in District 31, composed of Colorado, portions of Wyoming, New Mexico, Kansas, Nebraska, South Dakota, Montana and Texas.

Bureau of Markets—Live Stock and Meats

214 Exchange Bldg., Union Stock Yards. Sends daily market reports on meat trade and live stock shipments. District covering Colorado, Wyoming, parts of Utah, South Dakota, Nebraska, Kansas and New Mexico.

Weather Bureau

450 Post Office Bldg., J. M. Sherier meteorologist. The Denver Bureau, which maintains ten employes and has general charge of 160 stations and fifty river stations covers in its jurisdiction Colorado, Utah, Arizona and New Mexico; also various important rivers which it is necessary to watch in order to send flood warnings. These include the Colorado River from its source to the Gulf of Caliornia; the Rio Grande from its source to El Paso, Texas, and Arkansas River to the Kansas line, the Canadian River in New Mexico to the Texas Panhandle; and the Pecos River in northeastern New Mexico into southwestern Texas. The Bureau issues coldwave warnings to fruit growers and notifies farmers as to good alfalfa and potato harvest weather.

DEPARTMENT OF COMMERCE

Bureau of Standards

424 Post Office Bldg., George Pierce cement expert Principal work inspection of cement, tests of concrete aggregates, structural materials and general chemical analysis as required by various Government departments in the West.

DEPARTMENT OF THE INTERIOR

General Land Office

323 Post Office Bldg. M. D. McEniry, chief of field division, in charge. J. D. Yelverton, asst. chief field div., C. F. Read, special disbursing agent. Office investigates land frauds, makes appraisals and performs general inspection work in Colorado, Kansas and Oklahoma in connection with filings. Force of twenty employes.

Denver Land District

BALLENGER & RICHARDS

STREET AND AVENUE GUIDE

TO THE

CITY OF DENVER

Entered according to act of Congress in the year 1908 by
BALLENGER & RICHARDS
In the office of the Librarian of Congress, at Washington

EXPLANATION TO STREET GUIDE.

It will be noticed that in this Street Guide the names of the streets are mentioned in alphabetical order, giving the course in which they run, as near as possible, to all points of the compass, and enumerating all streets which cross the same in the order in which they occur, except on such streets as are crossed by numeral streets or avenues exclusively.

The decimal system of numbering being adopted, one hundred numbers are assigned to each square, giving one number to each twelve and one-half feet, or two numbers to each lot of twenty-five feet, beginning at the Platte River on the west at 0, and 100 at First street, increasing northeasterly on Larimer and all streets running parallel.

Streets crossing Larimer are numbered from Broadway increasing northwesterly. On Broadway and on streets running parallel with same the numbers increase northward and southward from Ellsworth avenue at 0. Avenues crossing Broadway are numbered east and west from Broadway at 0, prefixing the word West to that portion of the avenue west of Broadway, as follows: West Twelfth avenue would apply to that part of Twelfth avenue west of Broadway.

All West avenues run parallel with West Colfax avenue and from West Sixteenth avenue north to West Fifty-second avenue are located north and west of the Platte River. All other avenues run parallel to Colfax avenue.

For convenience in locating the streets and avenues, we have used the most prominent streets, avenues, boulvards and the Platte River as locating points.

STREETS AND AVENUES.

ACOMA,
First west of Broadway, numbered north from West Ellsworth av at 0, crossed by numeral avenues to West Colfax or Fifteenth av and from West Forty-second av at 4200 to north limits.

ADAMS,

EMPLOYERS PREFER CENTRAL GRADUATES

Because Central students are carefully selected on the basis of education, maturity, and personality.

Because Central students get a superior training.
Because Central students possess that unusual type of information, judgment and skill that insures efficiency and success in business.
It pays to attend an Accredited School.

THE SCHOOL THAT GETS REAL POSITIONS FOR ITS GRADUATES
Day and Evening Sessions throughout the year.

Fifteenth at Cleveland.

NEW HOME OF THE

BARNES COMMERCIAL SCHOOL

Fourteenth and Glenarm Streets, Denver

The Barnes School has been located for twenty years at 1625-43 Champa Street and will move to new building when ready the first of the year.

Regular School now in session at Champa Street address. New building will have accommodations for one thousand students.

Day and evening sessions the entire year.
Faculty of twenty-eight teachers and staff of six special lecturers.

All commercial subjects. For list of courses, see next page
Positions secured graduates. Nearly one thousand positions filled yearly.

THE LARGEST BUSINESS SCHOOL IN THE

ROCKY MOUNTAIN REGION

COURSES OF STUDY
OF THE
BARNES COMMERCIAL SCHOOL

THE BOOKKEEPING COURSE

This course gives a thorough training in bookkeeping and allied subjects, and a general training for business. It also qualifies the student to pass the examinations for bookkeeping and clerical positions in the Government Service.

Bookkeeping **Business Practice** **Banking** **Penmanship**
Spelling **Letter Writing** **Arithmetic**
Commercial Law **Rapid Calculation** **Business Procedure**

Special Features: English and Typewriting (Optional); Comprehensive course of lectures in Salesmanship, Advertising and leading lines of industry; Instruction in the operation of Adding and Calculating Machines, Posting Machine and Cash Register; Partnership Settlements; Auditing; Filing.

THE SHORTHAND COURSE

This course provides the special training needed for stenographic positions. Employment at good salaries is a certainty to all qualified applicants. This field is one of the most direct roads to executive positions for young men; and with the possible exception of teaching, is now recognized as woman's greatest field. Following are the subjects taught:

Gregg Shorthand **Touch Typewriting** **English**
Letter Writing **Spelling** **Penmanship** **Office Practice**

Special Features: Instruction in Billing; Tabulating; Business Forms; Dictaphone; Letterpress; Filing; Adding and Calculating Machines; the Writing of Contracts; Business and Legal Forms; Personality and Industrial Lectures.

THE SALESMANSHIP COURSE

Only a few of the larger business schools of the country provide a separate Salesmanship Department, yet the selling field is one of the most promising open to young people today. To young men especially, Salesmanship offers a wide field of opportunity.

Salesmanship **Advertising** **Business Procedure** **English**
Letter Writing **Introductory Bookkeeping** **Commercial Law**
Arithmetic **Penmanship** **Spelling** **Typewriting**

Special Features: Demonstration Sales; Study of Leading Lines of Industry; Visits to Industrial Plants; Filing; Lectures along Business and Efficiency lines, including Office Methods, Collections, Insurance, and kindred subjects.

SPECIAL COURSES

To meet the needs of those desiring instruction along special lines, the following courses are conducted and may be taken alone or in connection with other subjects:

English **Civil Service** **Accounting** **Comptometer**
Typewriting **Penmanship** **Posting Machine** **Speed Dictation**
Filing **Typewriter Billing** **Dictaphone**

Catalog and detailed information about any of the above courses mailed free upon request.

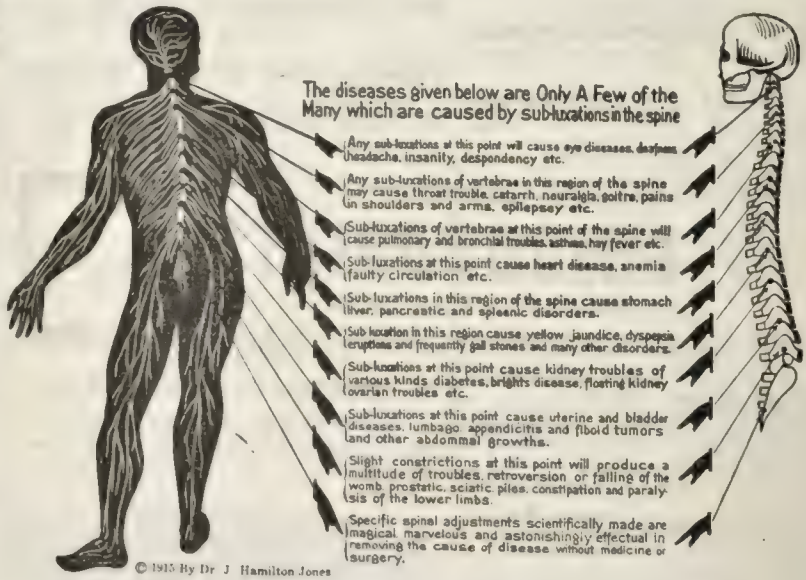
THE BASIC PRINCIPLES OF SPINAL ADJUSTMENTS

Dr. J. Hamilton Jones

Graduate of Dr. D. D. Palmer, discoverer and founder of Chiropractic. Having many years of experience, and a large practice, is a specialist in modern specific Spinal Adjustments, using new, original methods—coil expansion adjustment, and other methods, accomplishing adjustments in this manner where otherwise impossible.

WHY NOT BE WELL?

NO MEDICINE **NO SURGERY**



NERVES ARE LIFE

All nerves originate in the brain, converge at its base, forming the spinal cord, which passes out of the skull through an opening called the foramen-magnum into and through the center of the spinal column. From the spinal cord, nerve filaments emerge on each side of the spinal column through a smaller opening between each consecutive pair of vertebrae, from whence they proceed to the parts and organs into which they severally terminate. The vitality and activity of every organ, tissue and cell of the body is maintained and controlled by an inherent force or energy, which is transformed or individualized by the brain and then transmitted, by nerves to their respective parts and organs.

Dr. J. Hamilton Jones, Denver, Colo. 1834 Broadway, New York City,
My Dear Doctor Jones: July 23, 1918

I am writing you for information as to what school you are a graduate of. Have searched everywhere for a Chiropractor who could give myself and wife even a small portion of the benefit we derived from the Chiropractic Adjustments as you gave them but as yet have found no one. Kindly recommend some one that gives the Adjustments as you do. Best regards from both of us to you and your family. O. P. Sells & Co., 1834 Broadway, New York City.

☞Chart of Specific ramifications of the spinal nervous system, showing zones of disease as indicated by **impinged nerves.** Drawn and practiced by **DR. J. HAMILTON JONES, Chiropractor.**

CHIROPRACTORS

BLANCHE V. VASKO

DOCTOR OF CHIROPRACTIC

Chiropractic is the science of removing the cause of disease without drugs. It is based on a correct knowledge of the nerves from the great nerve center, the spine. Below are a few of the diseases which Chiropractic combats and puts to rout:

Appendicitis, Gall Stones, Neuralgia, Heart Disease, Liver Disease, Rheumatism, Stomach Trouble, Spinal Disease, Kidney Trouble, Paralysis, etc.

Announcing

A New Form of Protection

For Business Houses, Factories, Automobile Owners, Hotels and every line of business, or individuals requiring protection against Theft, Short Checks, Forgery, Embezzlement, etc.

A Blanket Protection that offers most unusual service. Our new service will involve actual service from agency officers and **Prosecution** of **all cases** by this agency without any responsibility whatever upon our client. A continuous protection under yearly contracts, all for a **most moderate fee.**

Phone Us—Our Representative Will Call

"THE DENVER—THE GREAT STORE OF THE WEST."

When this store made its modest start, 29 years ago, it adopted the rule of Honest Values, Courteous Service and absolute sincerity in its dealings.

This principle was made paramount because the staunch integrity of its founders demanded it, but if this consideration were eliminated, their confidence in the sensible rule that "HONESTY IS THE BEST POLICY" would still require that The Denver shall at all times be deserving of the public's faith in it as

An Unquestionably Reliable Store

ELECTRIC WIRING AND EXPERT REPAIRING

Our goods are always as represented.
Prices are the lowest, consistent with quality.

Our sales force is courteous, and will at all times give you a "square deal."

Our advertisements can always be depended upon.

Your trading must be satisfactory to you; we will always "make good." If you have any fault to find, tell us—if any praise to offer, tell others.

We never exploit bargains by sacrificing quality.

PHONES MAIN 1985-1986

Office and Show Room: 137-139 Fifteenth St., at Cleveland Place

SPECIAL NOTICE

A DENVER HOUSEHOLDERS' DIRECTORY

Will be issued in 1924, giving a list of all householders arranged alphabetically by streets and avenues. The number of each building on the street is given in numerical order, and opposite the number is placed the name of occupant or householder. A limited number will be available to the public. Those interested should phone for our representative to call.

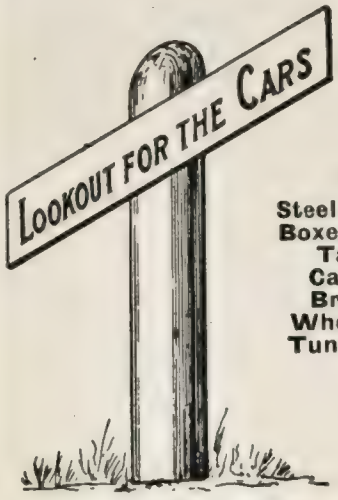
PERMUTIT—Water Softeners.
GENERAL—Automatic Scale Weight-O-Graph.



Why Business Men Advertise in Directories

BECAUSE they want to share in the business that is going on in their community.

—they want to be found when wanted.
—they want to be considered alive to all business prospects.
—more goods are bought and sold through the Directory than any other advertising medium.
—no wise man would buy goods unless he got quotations from all the people in the line of business that he is seeking to buy from.
—they are anxious to have their line of goods before the people seeking their commodity.
—Our Directories are the only mediums giving a full list of people in business in Colorado regardless of their size or rating,

ARE YOU

an Ice Cream Manufacturer ~
a packer or a butcher ~
a produce man or florist ~
a Manufacturer of Ice - or
any business concern that needs ~

REFRIGERATION ?

If so, we are in excellent position to serve you from our branch here in Denver, where we carry a large stock of refrigerating machinery, as well as all necessary parts and accessories, and where in our big machine shop we make all pipe coils for this whole region.

Back of us is a nation-wide organization, manufacturing, selling and installing refrigerating machinery and equipment all over the United States and in many foreign countries. This great organization is your guarantee of satisfaction on everything we install and supply.

Write us full particulars of your needs—you're not obligating yourself—and we can then submit facts and figures.

ELATERITE

THE QUALITY STANDARD

"A Grade for Every Purpose, at a Price to Fit the Purse"

ELATERITE PRODUCTS are for Service and Durability. Some of the hardest tests known from the natural destructive elements occur in the Rocky Mountain Region, such as the wind and storms and the Dry, Hot, Cold weather with the rapid and extreme changes, producing unusual expansion and contraction. Elaterite stands the test and resists these elements.

ELATERITE EXPANSION JOINT STRIPS
For Concrete Highways—**Best Product Made.**

Manufactured only by
THE WESTERN ELATERITE ROOFING CO.
Denver, Colorado.

A Kaustine Enameled Iron Septic Tank Will Outlive the Building It Serves!

(GUARANTEED FOR FIFTEEN YEARS)

Ten reasons why more Kaustine Septic Tanks are used than all other types combined.

1. More enduring than the finest concrete.
2. Costs less per gallon of liquid capacity.
3. Shipped complete, ready to install.
4. No danger of breakage in transit or by frost.
5. Easier to install. Can be handled by one man.
6. Scientific construction insures proper operation.
7. Removable top provides ready access.
8. Design of inlet and outlet pipes prevents clogging.
9. Free expert engineering service available to all purchasers.
10. Covered by fifteen-year guarantee.

Kaustine Enameled Iron Septic Tanks are Scientifically Designed and Made From the Finest Materials Obtainable.

The store that offers an old, or no directory, does not show its patrons a courtesy they will find elsewhere.

IN DELIVERING GOODS
Reduce errors and complaints by verifying addresses before delivering merchandise and thus insure prompt delivery.

IN COLLECTING MONEY
The Directory can trace debtors, who have moved, better than any other medium. Thousands of dollars are recovered annually by our subscribers, which would otherwise be lost.

IN YOUR CREDIT DEPARTMENT
The easiest and quickest way to check up statements and references of applicants for credit is by consulting the alphabetical section of the Directory. Everybody who is anybody can be found within the pages of the Directory.

To correctly address your clients for definite business Wrong address delay mail deliveries and mean unnecessary expense. If mail is worth sending it is worth prompt disptch. The money wasted on postage, stationery and labor for the lack of accurate Directory information amounts to millions. It is the result of false economy. To economize by not buying every issue of the Directory means a few dollars saved and hundreds lost.

Why Use the Latest?

FEW PEOPLE REALIZE HOW MANY CHANGES OCCUR IN A CITY'S POPULATION DURING A SINGLE YEAR.

THE ACTUAL CHANGES ARE SHOWN BELOW:

New names written in	22%
Old names taken out	19%
Changes in location	29%
TOTAL CHANGES	70%

This shows the danger in trusting to an old edition of the Directory. It may be right, but is apt to be wrong. It is cheaper to buy a new book than to take chances.

A SUGGESTION

Before using a directory anywhere, look to see if it is the latest edition. The merchant who does not keep the latest Directory for his customers' convenience, does not show them a courtesy they may obtain elsewhere.

YOU SHOULD BE REGISTERED

Under every heading in the Directory where people might look for you. The Directory is the natural buyer's guide, and one glance at the advertising section will convince you that keen business men realize this fact.

Your name in bold type under the headings not only gives you an advantage over competitors not so described, but protects all other advertising you may do.

Frequently the desire to purchase is not aroused until the display advertisement that suggested it is misplaced or thrown away. Then the natural place to look is in the Directory.

THE COST

Of registration is so slight when one considers its value, and the fact that it is working 365 days in the year, that no live concern can afford to overlook it.

ALEXANDER FILM CO.
Main office Denver

A service of effective publicity, in high grade motion picture theatres—blanketing the city of Denver—and extending to 44 states throughout the Union.

The largest organization of its kind in the world.

More than 150 specialists devote their time to the servicing of our thousands of clients.

You may have 99½% concentration on your sales messages unfolded before thousands of prospects seated in receptive comfort in the choice theatres of Denver.

Industrial pictures of your factory processes will be produced for positive theatre circulation.
